

# **Hari's Journey @ Animal Nepal**

**When we first spotted Hari, a puppy with multi fractures, in Harisiddi village, we thought he would be an easy catch.**

**However, when we returned two hours later with the ambulance, Hari was nowhere to be seen...**

**It took us three trips to Harisiddi to locate the puppy, who kept moving, dragging his injured leg.**

**Hari at first seemed miserable at our shelter. But it did not take him to realise he was in the right place.**

**After two months in a cast, Hari was as fit as a fiddle. He now waits for a loving family to adopt him...**

**In honour of the wonderful  
spirit of Nepal's animals.**
