

**Empowering  
young professionals**

*“This kind of interaction is very beneficial; I hope you will organise such sessions more often.”*

*“I now have confidence in finding the ovary during midline surgery.”*

*“Thank you for sharing your knowledge.”*

Empowering young professionals is essential in Nepal. Few (student) vets get the chance to learn practical skills in treatment and surgery. Few realise animal welfare can be a deserving career.

Last month, Mayhew International and Animal Nepal organised a series of workshop on good handling and surgery practices.

We organised a two day workshop for welfare professionals. One day student workshops were held at HICAST college in Bhaktapur and IAAS college in Rampur.

**We want to thank Mayhew trainers Dr Ursula Goetz and Felicity Forbes for their wonderful teachings.**
